DECLARATION OF JAMES L. YOUNG

James L. Young, registration No. 30,514, whose address is The Kinney & Lange Building, 312 South Third Street, Minneapolis, Minnesota 55415-1002, and whose telephone number is 612-337-9347, declares:

1. By the accompanying Preliminary Amendment, the Specification is amended to incorporate material from the referenced U.S. Patent No. 3,676,387 (copy attached). Specifically, the Specification is amended to amend the paragraph starting on page 2, line 22 to include material from the referenced U.S. Patent No. 3,676,387.

2. The incorporated material from U.S. Patent No. 3,676,387 extends from the sentence beginning in column 1, line 47 to column 2, line 37, and from column 2, line 60 to the sentence ending in column 2, line 67. Two grammatical and typographical errors in the incorporated material from the text of U.S. Patent No. 3,676,387 are corrected (the word "that" in Column 2, Line 14 of U.S. Patent No. 3,676,387 is deleted, and the word "thus" in Column 2, Line 63 of U.S. Patent No. 3,676,387 is changed to the word "this"). Other than those two minor corrections, the material incorporated from U.S. Patent 3,676,387, column 1, line 47 to column 2, line 37 and column 2, lines 60-67 is the same material incorporated by reference in the referencing application.

3. This same paragraph of the Specification is also amended (at page 2, lines 27-28) to include material from the referenced British Patent No. GB 1,268,431.

4. The amendments to the Specification at page 2, lines 26 and 31, and at page 6, line 3, correct an inadvertent error in the example number referred to in British Patent No. GB 1,268,431, which should have been Example II instead of Example 3 as was originally stated in the application.

First Named Inventor: Robert J. Wolf

Application No.:

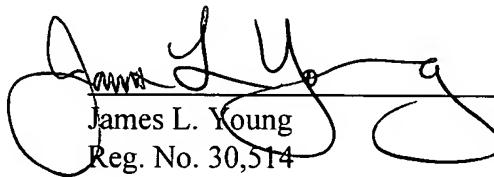

-2-

That this error was made is evident from the Specification at page 2, lines 28 to 31, which indicates that the intended example has a ratio of oil to block copolymer of 5 to 1. Only Example II in the British Patent recites that ratio.

I, the undersigned, declare further that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true and further that these statements are made with knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of this application or any patent issuing thereon.
